Excellent for Acreages & Farms needing a Shelterbelt

Some of the Benefits of Large Volume Tree Planting Include:

Helps to create privacy for your property

Provides protection for your land & buildings

Reduces wind & blowing snow

Helps to control soil erosion and moisture retention

Beautifies your yard & increases your property value

Mountains Edge Construction is offering a great deal on supplying & planting large sized caliper trees that are 15 to 20 feet tall. Trees and planting are being offered at \$220 per tree plus delivery. The trees for sale include Brandon Elm, Schubert Choke Cherry and Poplar trees. This very rare sale price is being offered to farm & acreage owners looking to secure large volume tree planting on their property. Sale price is only available while quantities last. Please contact Mountains Edge for the pricing and availability of other tree varieties.

Restrictions that Apply:

- Minimum 20 trees must be planted in a location to receive sale pricing
- There can be no restriction of access to the area of planting
- Property owner must not be concerned with slight property disturbances resulting from planting activities.

Example: Driving on Grass
